Communication Typeface

Inter is Radioloq's functional typeface for all digital and printed communication. It is modern, highly legible, and built for clear information hierarchy across Azerbaijani, Turkish, Russian, German, and English.

Use Inter across the website, social media, patient-facing documents, reports, presentations, email, advertising, and the Radioloq Courses platform.

A German-standard second look, in your own language.

I am an approbated physician in Germany, currently in specialist training in Radiology.

Need help choosing?
Contact us.

What knowledge and skills we have

I review your MRI or CT with the same standards I apply daily in clinic, and explain every finding clearly, in your language, within 48 hours.
